Canvas Printing Online with Tonal Reproductions by Cocomartin02

Article published on February 15th 2012 | Advertising

The reproduction of images on canvas through modern giclee printing is a great way to enjoy memorable photographs and your favourite artworks. With the availability of canvas printing online services such as those offered by Tonal Reproductions, ordering canvas prints takes only but a few clicks of a button. The Melbourne-based fine art reproduction house is a trusted canvas printer by the most discerning professionals and art enthusiasts. We deliver amazing canvas prints right to your doorstep.

It is easy to place an order for any canvas size with Tonal Reproductions. Customers can use various channels to order canvas prints online. The fastest way for your order to be processed is through the use of a sophisticated online ordering system integrated with the company website. Customers can directly upload the image or artwork of their choice and include their special instructions such as canvas size and other requests, in the respective fields.

Image files may be sent as attachments in the websiteâ€™s Contact Us page as well. You simply need to fill out the corresponding fields asking for your contact details and upload the image files you wish to be printed. Online users may upload multiple images by just repeating the process or including all their files in one ZIP file. Canvas printing online presents great convenience to people on the go.

Tonal Reproductions also allows customers to pay them a visit in their Preston office to communicate their canvas printing needs directly. Orders via post are also accepted. We recommend using a reliable courier to deliver your CDs, DVDs, slide, negatives, photo prints, and any other media containing your images to our mailing address: PO Box 420 Fairfield VIC 3078. Customers may opt for couriers that implement insurance and live tracking systems.

If you are well-versed in Internet languages and advanced systems, you can also send your image files directly to the companyâ€™s FTP server. This option is especially useful if your images are over 50MB in size. The details for Tonal Reproductionâ€™s FTP server are as follows:

Address: ftp.tonalrepro.com.au

User: guest@tonalrepro.com.au

Password: guest

Tonal Reproductions uses independently tested Canson Infinity canvases â€“ of the 100% cotton and poly/cotton varieties â€“ in making long-lasting canvas prints online. The canvas used for giclee printing affects the quality of the prints and is detrimental to the longevity of the artwork. In this regard, Canson Infinity canvases have withstood the test of time and we have trusted them for as long as we have been in operation. Canson Infinity canvases work best with our Epson printers and the fade-resistant inks that we use. We also apply special laminate finishing in various lustres for added protection.

You can be sure with the quality of your canvas prints online if you order from us. Tonal Reproductions applies a customer-focused approach in dealing with your orders and we strive hard to deliver prints that are as you envisioned. Our company mostly caters to artists and photographers who constantly seek our help in reproducing their works for commercial distribution or for displaying in Australiaâ€™s biggest galleries. Regardless of how big or small your orders are we go the extra mile to make your experience doing business with our company a most pleasant one. We also offer

special discounts for frequent customers and wholesale orders.
