Kids Bookshelves, sowing the seed for young imagination by

Article published on July 23rd 2012 | Business

Kids bookshelves - what better way to combine stylish interior design with an ability to promote a love of books and of reading at an early age.

Itâ€™s important to teach children from an early age, in a none forceful way, that bookshelves arenâ€™t receptacles for fusty old folios - which through the passage of have come to find themselves bereft of interest to even the most burgeoning little scholar.

It seems from observation that many teenagers seem to lack the emotional connection with books that many of the older generations have come to treasure. With fewer entertainment alternatives, the older generation probably invested far more time into working through the great childrenâ€™s books of the past.

Though a word of warning about kids bookshelves -the onus doesnâ€™t just lie with the children. The parents have less and less time to sit down and read with their children. Kids bookshelves shouldnâ€™t encourage reading be thought of as a solitary activity, an old fashioned answer to the problem of not yet having invented the television or the Xbox. Rather, kids bookshelves should engage. Kids bookshelves should instil from an early age a love of books, and the joy that comes from discovering for the first time an engaging story.

Of course â€“ itâ€™s not all about kids bookshelves; itâ€™s what you put in it. But having a set of kids bookshelves worth of stocking with a multitude of great reads is a great first step in the right direction.

The kids bookshelves from Sezitall are easy to set up and assemble, despite coming flat pack for ease of delivery. The shelves are a metre in width, and the letters are available in the red, mauve, white, blue, hot pink, and more, allowing a seamless join in whichever room you choose in terms of the colour scheme.
