Top Medical Schools in the World by [David Cunning](#)

Article published on July 26th 2012 | [Adult](#)

To become a doctor, one should devote a great deal of time and efforts. Proper education is one of the most important components of successful career in healthcare. If you have possibilities to choose among top medical schools, you are very lucky! Big number of best surgeons and physicians in the world are graduates of world famous medical schools.

According to the US News and World Report, the list of top medical schools in the world looks like this:

Harvard University

The oldest university in the USA, Harvard's top medical school possesses all necessary elements for intensive and successful training: experienced staff, laboratories, training clinics, career center, etc. Harvard offers both MD and PhD degrees for medical students.

University of Cambridge

Cambridge School of Clinical Medicine offers MD, PhD, and combined degrees for medical students. Those interested in research can find their niche in bioinformatics, cell biology, structural biology, and many more areas. Best working environment and technical support is provided according to the highest world standards.

University of Oxford

No wonder that Oxford is among top medical schools in the world: medicine here has been studied since 14th century. Those keen on medicine can enter not only traditional programs, but also online and distant courses. Programs for international students are available as well.

Stanford University

This top medical school offers MD, PhD, Master's degree programs, as well as multiple-degree programs. You can choose specialization from a long list of areas, from cell biology and to neurosciences.

University of California, Berkeley

Berkeley, as one of the top medical schools, unites students from all US states and from many countries around the world. This university offers joint medical program with University of San Francisco. This is a five year Master of Science/Medical Doctorate program.

Next five top medical schools in the world, according to the US News and World Report are:

Johns Hopkins University

University of Tokyo

Massachusetts Institute of Technology

Yale University

McGill University

All these institutions unite highly experienced and reputable professors and educators, comply with the highest world standards of technical and laboratory facilities, studying and working environment. In addition, top medical schools offer many options for the comprehensive development of the personality: various clubs, communities, activities are available for medical students. Have a chance to enter one of those institutions? Don't doubt, try your best and you won't regret ever!
