Buy Used Volkswagen for Sale in Phoenix

by Casper Victor

Article published on March 28th 2012 | Auto

Volkswagen - the world's leading carmaker has declared the launch of its Plug-in Hybrid, Volkswagen Golf in 2015.According to the carmaker, this seventh-generation Golf is enhanced with an array of stunning power train option.The Auto Express already rates this prototype 5-star.A 1.4-liter TSI turbocharged gasoline engine and an 80-kW electric motor, takes this vehicle into a league above other cars in its genre.

According to Volkswagen, its Plug-in Hybrid Golf will be capable of up to 30 miles on the electric-only range.Breezing through the city streets, the car will help you save on the cost of fuel.The car and its wide range of features do not come with an expensive price tag.It is expected that the car will be priced at par with its turbocharged Golf GTI model that has a starting price of $24,000.Other electric cars such as Chevy Volt, Ford Focus Electric and Nissan LEAF have prices similar to this car.

So if you are impressed with the brief preview of the Plug-in Hybrid Volkswagen Golf, discuss more about the car with your trusted Phoenix Volkswagen dealers.Make sure your dealer books this car for you as soon as it hits the market in 2015, just 3 years from now, if its features and early comments have awed you.However, you can catch a glimpse of this stunning beauty this September when Volkswagen displays it in the Paris Motor Show.

Buy a used Volkswagen car for now

Particularly for those on a budget, buying used VW cars is a viable alternative.Because of their long-life and unmatched performance, it makes sense to invest in a used VW.If you are interested in buying a used VW in an optimal state, there are a large number of Phoenix Volkswagen dealers that can be of assistance to you.

Buying used VW cars is not as simple as it sounds.You need to be particularly careful especially while selecting a Phoenix Volkswagen dealer.Deal with only reputed dealers if you wish to ensure a fair deal.Consult your friends along with searching on the Internet to find genuine VW dealers in Phoenix.

Check the condition of the car thoroughly

Ask as many questions as you can about the condition of the car such as, why the owner is selling the car, its accident and maintenance history, mileage, etc., while making a decision.And, don not take the dealer's word; insist on having the proof of the claims.This will help you understand what condition the car is in currently to get an idea about its price.Also, take a thorough test drive of the car to check the quality of its performance.An affordable VW car can most definitely be driven home if everything goes smoothly.

Start saving and putting aside money till 2015 to buy the turbocharged Plug-in Hybrid Volkswagen Golf!
