Premier Pool and Spas is a conductor in the state-of-the-art of pool design and contractors. Last 25 Years of experience in swimming pool design and construction. We have many designs and models to select. There are March, roman and rectangular models. The sizes of swimming pools start from 16 ft to 36 ft. That makes this pool to get installed anywhere in house i.e.: Basement, roof top or backyard.

A small, simple shaped pool is great for attention and revitalizing, while a larger, rectangular design is ideal for exercise and lap swimming. The downside here is the diaphanous amount of money involved and space you need. This would procedure out swimming pool as an option for most of the usually out there.

Our specialist craftsmen do Contractors unique Designer balcony, staircase, boundary wall railings and designer gates out of the best quality stainless steel and strong steel bright bars in our state of art technology factory. We also provide a wide range of Cast Iron banister for your stairs, balcony and boundary wall and designer cast Iron Gates to your imagination.

The rest of the design is also based on capable of being supported design principles, including the extensive use of construct beforehand for a variety of custom elements, such as the changing room modules with stiff frames. Before installing a pool, leveling of the site is necessary. Spread a layer of sand on properly equable site to give it a firm foundation.

Next step is to assemble the walls and secure them with firm support. Add some usually extensive and do up the any level. Do not forget to install safety features and the pool ready to take a mud. By selecting right kind of colors and lighting you can create a sophisticated space that is relaxing and also perfect to invite your friends and entertain them. As per your style and personality, you can create your own private industrial waste to indulge in. Materials can find natural or modern concepts, resulting in works that fit with the wishes of their respective owners.

We offer different types of decking to be put around the pool, water features (waterfalls, etc), lighting, custom covers, slides, diving boards, swim outs, walk in steps, unique pump and filtering equipment, automatic cleaners, and a variety of sanitation systems. Remember to talk to your local pool designer about local building permits and other requirements for installing a pool in your community. And keep in mind that adding a swimming pool design to your property also represents an increased liability risk. Check with your home insurance policy to make sure you have proper liability limits.

We give our clients their much needed information about the ongoing projects. We can also provide a lawyer in signing the contract for the project. This is to assure you that our transaction is lawful and you have nothing to worry. We will guide you in your decision and will be there to push thing through. No surprises that it is usually considered either exclusive or luxurious to have a swimming pool in your own outdoor property.
