Humanities Focuses on the Education-Truth-Art of Survival and Many More by Jim Simmons

Article published on January 23rd 2012 | Education

Our world is full of creatures, whose have a feeling for themselves but not fellow feeling to other, have a sense for survival but not a sense of humor, have an eye sight to see forward but not an oversight for future but we the human beings not only have a sense but also have a sixth sense which lead us to believe the candid truth of live and let live philosophy. All creatures know very well how to eat for survival but we the human beings know the art how to feed for survival. He may be the people we have never introduced earlier; we have no blood relation to him; may be belongs to other community, other states, or other country but we have a soft corner to him when he is in distress and our helping hand will raise in favor him any time anywhere in the world. All these things are the hidden secrets, lies in the term definition of humanity.

Humanities also educate us how to live with the people for the people and by the people through some cultural exercises and educational degrees. To lend a token of money to a beggar for a while is not a proper humanity definition but a good fruitful suggestion how he can overcome the situation permanently is a wise humanity. This type of idealism gradually spread all over the country and proved another aspect of definition of humanity.

There are so many fields are included in the definition of humanities like Archeology, Comparative Religion, Ethics, History, Languages and Linguistics, Literature, Jurisprudence, Philosophy, Theory and Criticism of Arts, Aspects of the Social Sciences, General and Interdisciplinary. Study Social Human activities, political and cultural development lies in the field like History, Anthropology, and Archeology. We can develop our communication skill with each other and procedure how our ideas and thoughts on the human experience are expressed and interrupted. Philosophy, Ethics and Comparative Religion convey ideas about significance of life and the causes for our thoughts and actions. Jurisprudence scrutinizes the values and principles which enlighten our laws. Historical, Critical and Theoretical Approaches to the Arts reflect upon and analyze the creative process of our mind.

The department of Humanities and Social Sciences was introduced in 1958 in IIT Bombay. At present the department has five disciplines namely English, Economics, Philosophy, Psychology, and Sociology. The Department of Humanities and Social Sciences plays a unique and distinctive in an institute where the ethos of science and technologies prevails. It is believed that engineering and science are by their very nature, humanistic and socially derived enterprises. Hence a complete physical science definition and technology education must include liberal arts, economics, social and behavioral sciences where the students unites application of scientific principles along with human, moral and social understanding.

Since 1973, the Department has been running the Ph.D. programmers in all the five discipline with an emphasis on inter disciplinary topics. The Departmental faculty also guides B. Tech. M. Tech. and M. Des. Projects offered by the Engineering Department and Inter-disciplinary group.
