Article published on December 22nd 2011 | Advertising

With the advent of the kindle book publishing, the entire scenario of the publishing world has changed, drastically. It is much easier to consider publishing books on kindle, than in the traditional way. Of course, the traditional means is also largely used, but if your intentions are to reach the market, as soon as possible then you can choose the kindle book publishing. Publishing with kindle book publishing can be done by you, without the help of any publisher as well as, without any extra cost for the entire process. While you are writing for publishing books on kindle through the kindle direct publishing, it should be kept in mind that it is exactly similar as writing, for the general book. You have to keep in mind, all the parts that a traditional book holds and write according to that. It is up to you as how you want to make your book more appealing to the masses?

For publishing books on kindle, it is to be kept in mind that, 10% of the book that you have written with be visible to the readers, who are intending to buy your book. This is your means of publicity. The small part of the book that the customers will read will decide, if they will like the book and if they prefer to buy the book. Therefore, it is recommended that you should write this part of the book, while you are publishing books on kindle in a catchy manner, so you can hold the interest of the reader. Putting some amount of suspense elements is also a good way of attracting the readers to purchase the book.

While publishing books on kindle, the first important thing that you should know is that the kindle book publishing presents before you, a huge readership market. A number of tools are also available, with the kindle book publishing. It is very necessary to read and understand the guidelines provided by the kindle book publishing, before you publish your book. There is a specific set formatting required, for successfully publishing the book. You need to follow that. You also need to be very precise while selecting the genre in which, you want to publish the book. It should match with the content of the book.

Choosing the correct keyword is also essential. You should try and avoid the keywords that have been largely used by others and having the keyword, which you are using, in your title is an added benefit. Deciding on the price of the book is equally important. You cannot just put an unlikely price, just because you thing that the book is great. Leave that to be decided by the readers. Putting a lower price than a normal paper book is recommended. In this way, it is likely that you will attract more customers, when you are publishing books on kindle.

For the promotion of your book, you can use various means like the social media, social networking sites, blogs, etc. It is also important to create an Amazon Author Page for this purpose.
