Costume fashion jewelry by Patric Ronald

Article published on July 2nd 2012 | Jewelry

Jewels are something which everyone has a desire for. For women, it is a part of their vanity and they like to have a collection of them for different occasions. For men, most of them use them as an accessory though there are lots of men who use it for vanity as well.

No doubt that jewelry can be fun for all of us but they are expensive too. Though we want to have a collection of various designs but affording so many of them is not easy. Costume fashion jewelry is just the thing that you would look for in this case. You jewel may look like it is made up of diamond, but it would not cost as much. That is the advantage of costume fashion jewelry. Speaking in general, these jewels are made up of pieces that are significantly less expensive than the actual jewel stones but at the same time are equally flashy and stylish thereby giving you a feel that you are wearing the real stuff.Fashion costume jewelry is really handy when it comes to adding that extra glitter to your wardrobe without burning a hole in your pocket and buying something that you can wear only on limited occasions and that with limited clothes.

Fashion costume jewelry is mostly made up of metals which give an extra shine. Some of the most commonly used ones are silver covered brass or gold covered silver. This ensures that the cost for manufacturing and subsequently the cost of the finished product are not very high. And at the same time, it gives you the golden or the silver look that you are looking for your jewels. At times, the costume fashion jewelry may also contain some crystals. These crystals give the jewels an authentic look of precious stones like diamond, rubies or emerald. However, because they are not the original stones, they are much more affordable.

You might wonder that because the custom fashion jewelry is not made up of the real jewels, they might not last for long. Well, you cannot be farther from the truth ifyou think so. You just need to take good care of the consisting pieces and you will find that the jewelry lasts for years. Every time you take them off, just wipe them using a soft cloth. Be careful to wipe each of the pieces and if there are any sweat drops on it, ensure that you wipe them off. If the sweat stays, it might affect the shine of the metal thereby making it duller. Also, make sure that you do not use strong chemical solutions to clean the jewels. These can also dull the shine of the metals.

You will find costume fashion jewelry to be affordable and no less in beauty when compared to the expensive designer ones.
