Enjoy the Fun of Online Sudoku Puzzles by Hellen Frey

Article published on December 8th 2011 | Entertainment

Enjoyed the world over, online sudoku is one of the most popular number puzzle games. Known by many as the wordless crossword or number crossword, and loved by logical thinkers world wide. It is true that people of all skill and IQ levels can have fun playing this number puzzle game, Lateral Thinking is recognised as being a key skill required to get the puzzles completed.

Popular with readers, newspapers and other printed publications have published Sudoku puzzles for many years now, and although it is known to have been published as early as the 1890s in a french daily newspaper, and it is undoubtedly much older than that. The popularised game has spawned many spinoffs, especially in the online arena where casual game developers have based a lot of puzzles on the original sudoku game. The Object of standard Sudoku is to fill a 9x9 grid with the numbers 1 to 9 in every cell. Each 9x9 grid is split into individual 3x3 subgrids and several numbers will be in place already to start the player off. The rule is that 1-9 can not be repeated in any row or column or any 3x3 subgrid. It may sound easy, but patience and logical forward thinking is required to master this great game.

The modern interest in Sudoku can probably be traced back to when a Japanese publishing company started selling puzzle games featuring Sudoku, in fact they can even be thanked for the name. It took off in the early 80s and soon became the nations favorite puzzle. There are serious players all over the world now, and still remains one of Japans leading past times, with National Championships taken very seriously.

The first known Computer Sudoku game was in 1989, a game called Digihunt on the good old Commodore 64. Since then, it has appeared under many different titles on many different platforms from the Spectrum through to the modern Smart Phones. These days, people know the name Sudoku and there are literally hundreds of places you can get your daily fix of number puzzle fun, either in print or online they are both just as fun.

Taking a look online into the world of sudoku reveals just how popular the game actually is. You'll be cronfronted with hundreds of thousands of pages to find the game ready to either play online or print and play later. You will also discover in depth strategy guides to improve your skill with solving sudoku, and if that is not enough there are a number of very accurate sudoku solvers that allow you to fill out the numbers from your puzzle grid and retrieve the completed board in return. Of course, not saying that you need to cheat or anything, but for those times when you just can not solve it it is there as an option just a few clicks away.

If Sudoku is a game you have never tried before, then next time you have a few minutes spare and decide to play a puzzle, enter Sudoku Games in google or any other search engine and try a game or two. It could become your new puzzle addiction.
