Tori Praver Bikini Collection â€“ Totally comfortable, sexy and functional two-pieces by Swimwear

Article published on April 5th 2012 | Music

Come summer everyone wants to be ready to enjoy the sea breeze, the feel of the beach sand on your toes, and the sensation of relaxing in the refreshing waters. For you to enjoy these natural treats you definitely need comfortable and sexy swimwear, and the Tori Praver bikini collection is certainly one of the best to make your selection from. Tori Praver swimwear has something fantastic for everyone including the pear-shaped, full bodied, slender and apple-bottomed ladies among us. With interesting but simple designs and a whole lot of styles plus lively colors to choose from, you now have what it takes to ensure that you will have the time of your life at the beach or by the poolside at your holiday resort.

You can be sure that you wonâ€™t go wrong with Tori Praver two-pieces because for one, Tori Praver has a lifetimeâ€™s experience of beach life herself being a native of Hawaii, and two because she was a once a bikini model. You can therefore expect that each and every piece which makes up the Tori Praver bikini variety exudes the elegant designs and functionality that suit an active and/or idyllic holiday by the beach. This two-piece variety features different bathing suit designs, which include plain but energy-fused colors, animal prints, and those with a braiding and fringe detail.

Toriâ€™s eponymous collection of remarkably well-designed bathing suits has graced the covers and pages of stellar magazines such as Marie Clare, Elle, Ocean Drive, InStyle, and so forth. You can therefore expect something new and exciting every season but all of which will feature the trademark signature - the â€œruching detailâ€• - that can only be from Tori Praver.

This collection features great, exciting and sexy bikinis that are simply a must-have for those exotic holidays. They are also unique swimsuits that in every way capture the essence of Toriâ€™s description of her designs as being fun, versatile and bohemian. Some of the hot 2012 Tori Praver bikini collections include the Dusty, Shyla and Raven tops, and Malia, Shyla and Hoku bottoms, all of which are available in great prints such as watermelon, nirvana neon, fanta and neon native.

Tori Praver has without a doubt taken different age groups into consideration while also paying a great deal of attention to fashion, and as such daughters and mothers have something special to look forward to in her collection. Many designer swimwear collections are usually designed to scream â€œlook at meâ€• or made with models in mind and therefore many (not necessarily) conservative ladies often opt not to buy designer bathing suits. There is however an almost deliberate step-away-from the norm with the Tori Praver bikini collection, which ensures that every woman can feel confident and beautiful while wearing them at the poolside or at the beach.
