Dubai is truly a land of opportunities for people all over the world. It has charismatic appeal for the traders and business individuals in view of the fact that it has got a lot of potential even for working professionals to get better jobs at higher salaries with living a luxurious and high tech life. Dubai fascinates many individuals due to presences of unique, distinguished and mesmerizing residential and commercial projects. These projects feature a common concept to provide a community-based living style. Most of these projects include residential units, office community centers and other activity place like gyms, spas, swimming pools, parks, etc. The majority of people living in Dubai are employees and they have moved from different places to this part of world in order to improve their earnings and support to their families. These individuals need to have a residence where they could live but they might not be able to afford heavy costs. So purchasing a villa or apartment for these individuals is out of question.

Their necessity is fulfilled by most of the building projects as they offer Downtown Property in Dubai. There are so many projects and each one is offering apartment for rent Dubai that it is very easy to find near the job location. These apartments are furnished with the latest and modern equipments and tools and usually comprise of 1 to 3 bedrooms, a bathroom, a kitchen and sitting area. Rent of these apartments is usually not a big amount and one may easily find a business bay property within the affordability. Many projects offer fully furnished apartments as well and this is why majority of the population is living in apartments. A trend of building highly luxurious apartment has also evolved and people, who can afford, love to purchase such apartments at the key locations. These apartments become their valuable asset and can be sold any time with a good profit rate.

When we look at the development of infrastructure over the past few decades, it seems like impossible to believe as the projects like Jumeriah Lake Towers, Burj Khalifa, Dubai Marina and many others are standing as the evidence of commitment of Dubai Authorities towards development of the area. Dubai Marina is located in the heart of city. The project is famous due to its unique design and development. This elite project offers modern and huge shopping mall for the residents of Marina community with retailing of world class fashion brands. Other features of the project include al fresco waterfront dining, super market and a 5 star hotel. There are four restaurants in the hotel which offer wide variety of food, meeting halls, fitness centre, business lounge, spa, hair salon, swimming pool, and much more. Dubai Marina has won the award called â€˜Dubai Leading Meeting and Conference Hotelâ€™ in World Travel Awards 2011. Apartments in Dubai marina can be possessed either by purchasing or on rent agreement. Assistance of a real estate agent can be hired to ease the process of looking for available apartments which fits in your budget.
