# Trekitt - Offer a Great Range of Premium Specialist Outdoor Clothing by Lenie Smith

Article published on June 10th 2012 | Shopping

We cannot deny the fact that since 1982, the UCO Candle Lanterns has been already considered as the original lantern which is classic, long-burning collapsible candle lantern that has always provide warm and natural light to thousands of outdoor enthusiasts. Some of this lantern actually provides 9 hours of warm light from just a single candle and the its unique spring loaded candle tube assures a constant flame height as well as a minimal wax spillage, while a small viewing window shows how much candle still remains. This lantern certainly works exceptionally well outside or even inside a tent during winter hiking as well as on camping trips.

Here at Trekkit, you can also find here the so called Vibram Fivefingers Sports Shoes which is the most versatile footwear they own. It has an adjustable hook-and-loop closures that cross over the instep and then surround the heel for a personalized, secure fit. Other than that, Tiley T3 Cotton Duck out has also an absolute classic bit of kit. This brilliant and stunning hat is actually made from cotton duck which is incredibly durable fabric that used originally as a sailcloth. The T3 will repel rain as well as snow and sun. With this, you can use it all year round in order to keep your head happy and protected as well.

Other than that, you can also find Suunto Outdoor Watches in this store. It is actually the military version of the standard Suunto X10. This one has an all black body with a black negative LED face with a red backlight as well. The GPS of the X10M can also be set in order to use the MGRS system and is also compatible with the National Geographic TOPO as well as the Memory Map and the Fugawi. It has also the standard GPS features that you would find in a basic handled GPS, waypoints, route following and then trackback, wherein all of which can possibly be programmed on your PC and then uploaded to the watch or even entered directly into the X10 itself.

If you are looking for something that could naturally molds to your unique foot shape, then Superfeet Insoles is the right one for you. Through its daily wear, it will now give you a personalized fit without even having to heat the insole in an oven. As the DMP foam adapts to the shape of your foot, the insoles biochemical integrity will just remain intact for support and stabilization as well. It is actually primarily designed for footwear with a removable insole. There are still many things that you can find here at Trekitt, all you have to do is either to come on in their store or just visit their website and then enjoy shopping.
