Are you tired of holding your breath through a rainstorm, wondering "Is there water in the basement again?" Are you tired of finding water in basement corners and closets without identifying the source of the leak? Then consider Water Dry Solutions for basement waterproofing.

Floods are one of the most financially damaging disasters known to man. Since 1929, the average annual damage caused by floods is a whopping $2.4 billion dollars. This figure includes everything from crop damage to less catastrophic but more typical instances of water in the basement. Water in basement areas is one of the most pressing concerns for home owners and Water Dry Solutions can help to ensure that flooding is never a problem again.

Water Dry Solutions only tries to reduce the likelihood of you coming home to find water in basement areas. There a number of flood prevention and waterproofing measures that are identified specifically for your home. There will be no extra sales, upgrades or add-ons, only what is necessary.

If the reason water has been getting in the basement is concrete issues, then we can provide crack repair, repointing block or stone foundations, pouring new basement floors, and other masonry work. These repairs will be performed with care and expertise and will eliminate water seepage at these sensitive locations.

Other interior issues include diagnosing and attacking common mold problems in the basement and waterproofing of crawl spaces. Water Dry Solutions gladly provides these services for your health and protection of your treasures.

For exterior issues, we can implement or tweak your indoor and outdoor drainage systems as well resolving any of your existing downspout issues. Should a new sump pump need to be installed, Water Dry Solutions is up to the task.

If your basement needs a drastic overhaul, Water Dry Solutions can help with whole basement remodeling. In addition to offering the protection against water in basement, we work with a great local carpenter to give you that special remodel.

No matter what the question is, we have the Water Dry Solutions. We'll help prevent against water in the basement with our meticulous inspections and careful work. Flooding is an annual concern for millions of Americans and Water Dry Solutions has been providing trusted work for the last fourteen years. If you never want to see water in the basement again, consider Water Dry Solutions, your professional flood experts since 1997.
