Leimo Hair Treatment Pack - the Secret for Healthier Hair by [Amanda Hudson](#)

Article published on April 2nd 2012 | [Alternative Medicine](#)

I have been a user of the Leimo Hair Treatment Pack, a suite of topical hair loss treatment products, for almost two and a half years now.

When I was younger, during my 20s, my hair was very thick, but certain things happened in my life that made way for stress. A couple of months later, I noticed that my hair was starting to get thinner and finer. I have noticed a lot of falling hairs in the sink of my bath, on my pillow cases, and on my hairbrush. When I saw that my hair loss was too much to take, I was at my wits end over-trying out different hair loss treatment products to stop my impending baldness. What's worse is that when I tried using a certain product (though I would not mention any brand names), I experienced side effects like skin irritations and swelling, hence making me a little frustrated on looking for the best treatment that would solve my hair worries.

Luckily, a friend told me about his little secret. Like me, he was suffering from hair loss. He has male pattern baldness inherited from both sides of his family, from his mother and father. I was a little surprised because I noticed that his hair is thicker and healthier looking. It made me wonder if he really has pattern baldness. But then he told me about his secret and suggested I should employ the same hair loss treatment. He recommended the use of the Leimo Hair Treatment Pack as a means to prevent and stop the progression of my hair loss.

At first I was skeptical about the product, so he told me about the Leimo 30-day Free Hair Loss Treatment trial. He was the one who encouraged me to avail of Leimo's promotional activity. Due to his urging, I called the Leimo hotline and availed of the 30-day free hair loss treatment trial.

During the span of 30 days, I really did notice something about my hair. First, the flakes, itchiness, and dandruff on my scalp were gone. I also felt that my hair is softer, smoother and shinier. With these tangible results, I made it a point to buy my very own Leimo Hair Treatment Pack after my 30-day Leimo free trial had expired.

Now, the Leimo Hair Treatment Pack is still a part of my daily hair loss treatment routine. For the past two years and more, I have noticed an improvement in the quality and growth of my hair. Thanks to the encouragement of my friend, I found a way to regain the health and beauty of my hair with the help of the Leimo hair loss treatment program.
