Shoji Closet Doors - for a Touch of Ethnicity by James Blee

Article published on March 2nd 2012 | Home Improvement

The Japanese design features angular forms and simple lines where ornamentations could barely be seen. The most excellent example of the rareness of Japanese design is reflected in shoji doors, whether sliding, closet or the screen variety. The shoji closet doors are trouble-free to set up. The most fundamental and fashionable process of installing is to assemble the surface-mounted tracks in which the screens hang to cover windows, sliding glass doors, empty or open spaces. Another benefit of Shoji doors is they are most excellent in controlling light and space. There are numerous Shoji doors accessible on the market that finding one that suits your style is easy.

The Shoji doors are well-designed to suit different structures and design challenges, ranging from light diffusion to room division. They can add peacefulness and warmth to your surroundings, plus you get to enjoy the striking simplicity of Japanese design. The doors can be personalized and installed without difficulty over existing pantry or closet. They are the ideal solution to your home's storage and aesthetic requirements. The Shoji doors are accessible for a retail price of $17,500.00.

The shoji closet doors are accessible as bi-fold or sliding and both emanate space and warmth in a room. You have the choice to add kick panels to guard the bottom of your shoji. These doors are made in different styles such as Asian, Architectural, Contemporary or Craftsman styling. The doors complement each decor with option of facings, custom grid patterns and hardwoods. Traditional Shoji screens have evolved in their utilization and appearance. As replacement, they are integrated into different home styles and uses. Shoji is being utilized as sliding door, closet, window coverings room dividers and entertainment center doors. The flexibility of shoji doors permits creative mix of form and function.
