Article published on December 19th 2011 | Vacations

Cultural differences can make simple tasks, such as renting a car and driving it in a foreign country, a challenging experience. Taking a trip to Israel can be even more special if you follow a few simple guidelines, taking into consideration that you can get even more out of your Israel experience, be it for business or touring purposes: or a combination of both.

It is important to note that in order to rent a car in Israel, you need to be over 21 years of age and have your driver's license for at least one year. In Israel, drivers less than age 25 are usually required to pay a "young driver" extra charge, which is also required of younger Israeli residents. There are a large amount of insurance options available, so check insurance details carefully, and feel free to ask questions, as well. Insurance is usually included in the rate, but it is better to confirm every detail of your car rental to be sure that you are getting what you have paid for and to see whether or not you will need to make use of any of the supplementary insurance options that they offer.

Renting a car lets you decide when and where you want to be, and for how long. You will be better able to organize your journey so that you are able to really live the history, culture and the diverse people of Israel. This suggested list was compiled to help make your car rental in Israel experience an easy one:

1. Comparison shop before your arrival - You can choose to take advantage of a travel agency to make the arrangements for you cheap car rental in Israel or you can find a trustworthy comparison website to see what kinds of quotes that you can get from the various international and local car rental companies.

2. Book your car rental in Israel in advance - Whether you book through the Internet or through an agency, it is best, especially during holidays and summers, to secure your rental car in Israel order as far in advance as possible.

3. How long you will need the car rental and approximately how many kilometers will you drive? This is an important factor in calculating your final cost as the price will be determined by how long you will use the car. If you keep the car rental for a longer period of time, you will definitely pay more, accordingly. The distance will also affect the rates in that when you intent to cover long distances. If you plan to go far with the car, you may find that the price is quite high.

4. What size car do you need? In general, you can choose between small, medium, large and people carrier, with many variations in between. Make sure that your rental car in Israel is equipped with air conditioner, power steering, central locking, electric front windows, airbags and ABS, which is standard with many of the more reputable companies.

Enjoy your trip to Israel and make sure you follow these tips to make your trip even better!
