Article published on August 21st 2012 | Art

The Enid Hutt Gallery offers a huge selection of only the best wall dÃ©cor and art. The range includes limited editions, prints, originals and sculptures for both traditional and modern style.

This family business has been running more than 15 years, gaining valuable experience in the world of art. Their specialist online collection features artists such as Jack Vettriano and Doug Hyde, whose work is as different and individual as their customers.

The business started as a quarterly exhibition of a fabulous array of pictures, as well as mirrors in The Craws Nest Hotel, Anstruther. Because of the great success of exhibiting at the hotel, the demand for specific premises increased. The Enid Hutt Gallery was opened in1990 and registered as a member of the Fine Art Guild in the year 1994.

After opening the gallery, many artists became part of it of the gallery's inventory. One such artist was Fabian Perez. Fabian Perez doesn't categorize the style of his artwork because he believes that to add such labels would limit him when it comes to his artwork. You'll notice that his art is a simple expression of his personal passion and strong romantic feelings.

Approaching art differently to Perez, the artwork of Mackenzie Thorpe expresses the whole range of human emotions too. Thorpe explores the feelings from love, life and laughter, to adversity and struggle, and then challenge and innocence. The world of Mackenzie Thorpe also reflects on our own which offers flashes of our everyday life.

His art covers childhood, leisure, work and love, and because of the satisfyingly rounded shapes and occasional cartoonish styles, he can truly convey a great range of emotion and spirit. Here at the Enid Hutt Gallery, you can find these great collection of limited edition prints and signed editions of Thorpe's extraordinary pieces.

Another featured artist at The Enid Hutt Gallery is Alexander Millar. Millar loves to work in natural light and he believes that there is really nothing better than being able to sit outside, even when it's cold. You just need a cup of tea or something a little stronger with classical music in the background. This motivates the artist to produce his stunning and powerful pieces. The result is incredibly emotive, touching the memories of families and loved ones that have gone, tinged with sadness and humour.
