# Online Data Storing Made Easy with Dump Truck Online Storage by Henry Hernandez

Article published on April 27th 2012 | Internet

One can now open a Drum Truck account to use online storage feature with proper security and user-friendly interface. This enables users to load their data and store them online easily.

Dump Truck Online Storage is an online storage facility for your files. Golden Frog and Giganews has come together to put forward this facility for all these, who have a Giganews account, and now Dump Truck is available on Facebook as well. This is huge, professional grade storage. Those, who hold a diamond account, can gain more from such a deal of online storage space. This service allows you to store many different data.

## Load different data

Dump Truck Online Storage allows you to store documents, photos, and other files online. The best thing is that the interface is very easy to use, as you can easily store files with drag and drop facility. If you are concerned about the security of such online storage, then there is nothing to worry, as it is secured by SSL encryption. Therefore, your stored data is also safe with this online storage service.

## Access your files all the time

Another advantage of Dump Truck Online Storage service is that you can access your files at any time and from anywhere you want, if you have an internet connection. The feature of java-based file uploader is also provided to users of Giganews, so that they can upload their files easily and quickly. The web browser interface of The Dump Truck now comes with the feature of uploading folders in the same internal file and sub folder structure.

## Latest interface

Some of the other features of the latest interface of Dump Truck Online Storage include an upload button, which support folder as well as subfolder, drag and drop of subfolders, and a better upload queue. The feature of upload button is accessible through all the operating systems and browsers. However, for drag and drop feature, java is required. If you wish to use all these facilities of online storage, then you can sign up with Giganews.

## Other useful features for users

The retail edition of Dump Truck Online Storage is coming soon for the customers of Golden frog. Another benefit of this online storage facility is that it does not utilize data duplication, so your files will not be accessed, even if someone duplicates it. Apart from the interactive and easy-to-use interface, this online storage provides WebDAV support, so that you can access your files from any browser. One can also purchase additional storage space online by paying some extra charge. The plans and pricing differs according to the space one purchases. The rate might be different for Diamond account holders and for other accounts. For now, you can open a Giganews account to use the trial version of this online storage.
