Get Custom Designed Crayons at Lowest Rates by [CrayonKing](#)

Article published on June 29th 2012 | [Art](#)

Everybody in his childhood must have used crayons enjoy and draw whatever comes in their mind. The crayons are widely used in schools, art institutions and various other places to draw various things and to mark different spots. The crayons are available in different colors, sufficient to draw any real or imaginative concept. Instead of buying single packets of crayons, you can order crayons in bulk from various online stores. You can also get custom crayons as per your requirement by ordering online. The single packet of crayons can cost you mo, while ordering a bulk amount can help you in saving big bucks for your other purposes. The crayons are widely used by school childrenâ€™s for drawing purposes, they also use crayons to draw on their room, and classroom walls whenever they get chance to draw. Crayons are used by professional artists for drawing portraits and for sketching sceneries, landscapes etc. the market of crayon users is very large and varies widely. The crayons help in drawing real life pictures and are therefore leading artists use it across the world.

The crayons are widely available across all the stationary shops at different prices. After seeing the large market for the crayons a number of players have emerged in the field of crayons and have started manufacturing their own crayons. You can buy crayons across a very diverse range from ordinary crayons to oil pastel crayons and their effectiveness varies with their price. The lower priced crayons are suitable enough to be used by small kids, while with their higher classes the quality of crayons required is also increased. The crayons are made using wax and lot of other ingredients and sometimes-toxic chemicals are used to in the making of the crayons. It is also said that never ever allow your little childrenâ€™s to put crayon colors in their mouth. However, nowadays crayon companies have presented custom crayons free from any toxic chemical and are safe for use by smaller kids. If you used well, crayons can help any artist to draw effective creations by making good use of the crayons. Artists in old times used crayon colors to draw whatever they like because of the higher costs of other coloring and drawing means.

Crayons also provide the most effective way to see the creativity of your kid and can help in kid to draw whatever he thinks of. The crayons can be used to provide a way to bring outside the hidden feelings of the person who hesitates in discussing and what a person thinks of the world around him and his outlook towards the world. The purchase of crayons in bulk is definitely going to cost less on your pocket if you choose a good market player.
