Magicjack Phone Service: Better Method to Cut Back on Your Telephone Bills by

Article published on May 11th 2012 | [Article Writing](#)

Technology invented a lot of ways for you to reduce on your telephone bills, but most of those inventions are hassle to use. One of the best things that life has to offer is the magicjack phone service. Lots of individuals are quite pleased with this new technology since this not only helps them save hundreds of dollars but it is also easy and simple to use. This is a USB device made by Dan Barislow. This product uses VoIP or voice over internet protocol network that allows users to make excellent phone calls wherever they are as long as internet is present. It can be utilized with any regular PC or laptop or without it as well.

You usually don't need any landline or cell phone network anymore since all you need is simply an internet connection and a computer. This sounds really amazing and that is why many people are hooked to this product and is widely used by many individuals for the world. This device can also give you a great quality phone call anywhere you are in the world. You do not have anything to worry about long distance phone calls that are quite expensive and if you don't like to leave your computer on all the time then you can plug your magicjack phone service in any wall.

Usually, phone companies are not always honest with regard to phone bills particularly if you add new features to it. But with magicjack you get a lot more than just any typical phone services. You have yourself a phone number which is free and you can use right away. You even have voicemail, caller ID, and call waiting and directory assistance as well.

Long distance is not a problem for this type of invention once you start using this. You can easily stay at a hotel in Europe with the same telephone number in America. You just need an internet connection and your laptop as well.

You can call anywhere to United States and in Canada as well without having to pay additional calls. This can cut back on your telephone bills and reduce the need for any collect calls or call cards. This is amazing particularly for individuals who travel a lot. It is now easier for you to call anywhere particularly if your in Asia or in Europe.
