Article published on January 18th 2012 | Auto

Where the 11th Auto Expo is already gone live in Delhi, it is supposed to be a perfect platform for truck or auto industry professionals to be a part of. It is the biggest auto show in India wherein people will get to learn something beyond cars. With around 23 countries participated in this mega auto show, 1500 participants have to showed up. And what's so special about this event is it is a perfect platform to be at for the truck and auto industry professionals. The auto show is organized with a special focus of educating the auto industry professionals all about Green Technologies and Environment.

What's so hot about this show?

â€¢ It is the biggest auto show organized in India with over 1500 participants from 23 countries

â€¢ Chief focus is on Green Technologies and Environment

â€¢ It is the biggest and best platform for auto industry professionals to learn more about green technologies, gas and fuel technologies, car parts and the gearbox

â€¢ It is definitely the place to be for truck industry and auto industry professionals to caste a look at green mobility technologies as well as car specials.

Are you a small scale or big scale auto industry professional? Do you wish to add alternative fuels and green mobility technologies at your industry? 11th Auto Expo in Delhi is a perfect place for you to be at!

The show had launched around 50 new delivering cars, bikes along with commercial vehicles like trucks. Along with 24 domestic launches, there will be 8 global launches as well. The show will not only showcase new cars, bikes, and commercial vehicles but also will pass on a message of green mobility, fuel alternatives and environment friendly green technologies.

Asia Motor Works (AMW) is one of the proud participants of this mega automotive show. Some other Commercial Vehicle Manufacturers who are a part of this automotive show next week are Ashok Leyland Limited, DAF Trucks-Paccar, Force Motors Limited and others. Passenger car manufacturers like Audi India, BMW India Pvt. Ltd, Ford India Pvt. Ltd, General Motors India Pvt. Ltd and others have booked their space as well.

In this 11th Auto Expo in Delhi, all truck industry professionals or other auto industry professionals had got a chance to explore about car audio, gas technologies, IT equipment, alternate fuel and all about green technologies. And what other better platform it could be, here in Delhi with 16 halls, 10 hangers being booked. With thousands of visitors expected to visit the expo every day, this automotive show has already began showing its colors of success, yet another year.
