Acura ZDX, Acura MDX and Acura RDX: known for its quality and uniqueness by [Crownacura](#)

Article published on April 18th 2012 | [Auto](#)

Are you looking for a best vehicle? It is very important to have durable, reliable, well designed and well authenticated vehicle for your daily use. Every customer wants to have some extra features in his vehicle. Now we are going to discuss the Acura brand which consists of all the required features even include extra features.

Acura is a well known automaker that offers cars with impressive levels of luxury, performance and extra features. In 1986, the company Honda introduced the Acura brand to the U.S. market. In the initial period, it was just an effort to create a separate luxury division for its products and it also gets succeeded in its mission. With the passage of time, it launched its various models which are always known for its well designing, uniqueness and performance.

There are three latest models of Acura which we are going to discuss below:

Acura ZDX

The 2012 Acura ZDX is powered by a 3.7-liter V6 that produces 300 horsepower and 270 pound-feet of torque. It includes 19-inch wheels, ambient cabin lighting, heated outside mirrors, a panoramic sunroof, automatic xenon headlights, a back-up camera with a rearview mirror display, fog lights, dual-zone automatic climate control, Bluetooth and a power lift gate and satellite radio and a USB/auxiliary audio jack is also standard. The ZDX's maximum towing capacity is an underwhelming 1,500 pounds.

Acura MDX

The 2012 Acura MDX has capable handling. It includes user-friendly high-tech features and finely crafted interior. The 2012 Acura MDX is powered by a 3.7-liter V6 that produces 300 horsepower and 270 pound-feet of torque. It includes a navigation system with 8-inch display and dial controller, parking camera, -view GPS-linked and solar-sensing climate control, an iPod/USB interface, 19-inch wheels, auto-leveling headlamps, a rear-seat entertainment system and heated second-row seats.

Acura RDX

It has better fuel economy, fresh look and more power. Due to this reason, 2013 Acura RDX is supposed to as a solid choice for a premium small crossover. The 2013 Acura RDX is powered by a 3.5-liter V6 that produces 240 horsepower. It includes all the features of Acura ZDX, Acura MDX plus it includes a power lift gate, keyless entry/ignition and a three-view rear camera.

Therefore, it offers some of the nicest luxury appointments, safety technology, top comfort and satisfying driving dynamics. Still there is no such a brand which could challenge the quality of Acura. This brand becomes extremely popular among those consumers or customers who want specially quality and dependability in vehicles. Overall, it is the solid, best choice for a family car.
