BMW Driver Training at Toronto Congress Centre by [Robert Vadra](#)

Article published on July 27th 2012 | [Auto](#)

Special BMW driver training is coming to Toronto for those who want to really experience the thrill of driving a BMW. Barrie's Georgian BMW recommends this fun program to drivers of all abilities including first-time BMW drivers and teens with learner's licenses. This special BMW driver training program takes place on July 14th at Toronto Congress Centre with both introductory and advanced driver training courses offered.

The half-day introductory course is perfect for any BMW car owner. Whether you drive a new or pre-owned BMW, you'll learn valuable techniques that will make you a safer, more confident driver. Held from 12:00 noon through 4:45 PM, you will learn about basic vehicle dynamics and emergency responses. Imagine driving a BMW SUV through a challenging course and learning how to steer through skids in a safe, controlled environment. Among the many topics covered are: vehicle dynamics and theory, proper positioning, steering and handling, emergency braking and avoidance, and more. This introductory driver training course is limited to just 16 participants, ensuring that you'll receive plenty of personalised instruction. Light refreshments will be provided.

The full-day, advanced BMW drivers training course takes place from 7:45AM through 4:45 PM and is limited to just 20 people. If you have the basics of driving a BMW covered, this course is for you. It covers advanced, real-world driving scenarios, equipping you with the skills you need to control your new or used BMW. Barrie drivers will find the 80 kilometre trip down to Toronto well worth making as they master the skills needed to enjoy the "ultimate driving experience." Topics cover vehicle dynamics and theory, positioning, steering, braking, skid control, cornering, under- and over-steer, emergency braking and avoidance, slalom, and more. A light breakfast and lunch are provided. After completing the advanced course, you will qualify for BMW's "Perfection" course.

Both BMW driving courses conclude with an autocross competition, debriefing, and certificate presentations. Because these courses are limited to just a handful of participants, it's important to reserve your spot promptly. Have you participated in a BMW driving course? Share your experiences with others by visiting Georgian BMW on Facebook.
