Chevrolet Beat â€“ a Stunning Hatchback by Jameskenrich

Article published on December 7th 2011 | Auto

The Chevrolet Beat is a surprise for those who would like to buy a car that is compact, stylish and within his budget. The insides and the outsides are amazing is what the Chevrolet beat review has to say about the car. This shapely machine is quite powerful and is highly competent, well-built and comes with comfort and practicality.

The real shocker is the cost of the car, which starts approximately at Rs. 3.34 lakhs for the basic version and rises to Rs. 3.94 lakhs. The company has kept the Chevorolet Beat price to suit every budget.

The design of the Beat is aggressive and stylish and is instantly liked by all. The front has been given a unique look that is disproportionately larger as compared to the rest of the car. You will see the massive, split Chevy grille with huge headlights and large bonnet with deep chin. All these contribute to the looks of the car. The sharply cut wheels arches are made for 14 inch wheels, which are the largest for the compact cars. The rear of the car is dominated by a retro-looking twin circular lamp clusters and split lower bumper.

The beat has a 1.2 liter, four cylinder petrol engine that is very different from the UV-Aâ€™s 1.2 liter engine. The car comes at 79 bhp at 6200 rpm and has a maximum torque of 4400 rpm. To reach 100 kph you need only 14.8 seconds. The top three gears are short and therefore great for highway overtaking even if the Beat is fully loaded, it doesnâ€™t feel sluggish. The mileage given by the car is a decent 11.5 kpl on the highway and the top gear gave a modest 15.3 kpl. The suspension is good quality and gives optimum comfort.

The Chevrolet Beat is available in 3 variants like the Base PS version, LS version and the fully loaded LT variant. The interiors are very luxurious and come with decent seating arrangements. Four people can be comfortably seated and have great cushion cover. The exterior look is a real sporty hatchback with polycarbonate lenses and the bezels are chrome coated. The upward slanted windows are dynamically shaped with the roofline and the sideline enhancing the sporty look to give it a futuristic look. This five door vehicle is a good vehicle for city drive and highway drive and therefore has gained a lot of popularity and today is one of the top selling cars in India.
