Samsung Galaxy S2 - Samsung Rises Their Smartphone to a New Level by James Brook

Article published on July 2nd 2012 | Mobile Phones

All those who were eagerly waiting for it can now relax as the new Samsung Galaxy S2 is out in the market. Samsung phones ranges has introduced some of the most affordable smart phones under the galaxy series and it has impressively brought out this variant of the galaxy series and is confident about it catching up the market very soon.

This 3G phone weighs 135 grams and its sleek form is truly appealing to all eyes. The display is a 4.52 inch super AMOLED plus touch screen enables less scrolling as the wider screen enables the user to see more and see clearly. This multi touch enable screen is protected by Gorilla glass with corning effect so that the occasional drop of the device and such other nightmares will not exactly spell the doom for this device. This is quite a relief to the masses as it is not quite easy to maintain the smart phone as it is a known fact that these devices are fragile in nature.

The phone has a massive internal storage of 16GB which when comes together with the SD slot which can be expanded up to 32 GB offers something like another dimension to the user for storing data. Talking about the camera, the phone has a 8MP primary camera with LED flash and auto focus which provides an image of 3264 X 2448 pixels. The video clarity is also impressive at 1080p@30fps. The secondary camera of 2MP makes video calling and other such functionalities a reality which is necessary in the fast life we are leading now.

The android 2.3 OS with the dual core 1.5 GHz scorpion processor does not only makes the device very fast and responsive but the Qualcomm chipset makes the graphics of the phone even more impressive. Then there is the wide range of applications which makes any android phone all the more handy and useful. Then the HTML flash browser is also one of the features making the phoneâ€™s net surfing capability pretty impressive, as expected of a smart phone.

It is highly recommended for one to check out the new Samsung Galaxy S2 as it has become a rage in the particular segment of the market.
