Samsung Galaxy S2 I9100, which Samsung is going to launch in the coming days, is an improvement of its antecedent the S I9000 that was massively popular. The phone houses much powerful dual core processor functional at 1.2 GHz. The handset is available with TouchWiz 4.0 user interface operational on the newest Android 2.3 Gingerbread OS. The wonderful AMOLED along with display Screen is about 4.3 inches and the AMOLED expertise makes it feasible to analyze the display even in the direct sunlight. The display screen supports 480 x 800 pixels resolution in addition to 16 million colours.

The major striking point about Samsung Galaxy S2 is the 8 megapixel resolution camera, which is capable of recording movies in full HD mode at 1080p. The weight of the handset is about 116 g and is enclosed in a skinny 8.49mm chassis. The boundaries are curved smoothly and nicely that offers it a good sporting look.

The high end phone comes with series of unique features that most of high end phones supports such as light sensors, accelerometer and proximity. Beside this, Galaxy S2 features magnetic sensors and gyroscope that can sense hand movement and gestures easily. Samsung Galaxy S2 I9100 even allows you to make video calls, as it has got the secondary camera of 2 megapixels being placed in front. Over all, there are 2 cameras with an 8 megapixel camera at the back for taking up some amazing photographs. It is not just the 8 megapixel integrated into the phone but it is made very much sure that the phone camera works better than the high class dedicated camera. The camera offers various features that are generally available in the compact digital camera counting manual ISO and manual control settings.

While buying a high-end phone, there is no need to worry about the connectivity options, the phone supports GPS, 3G with A-GPS, Wi-Fi, EDGE /GPRS, USB 2.0 & Bluetooth 3.0. The phone has an internal storage of 16 GB and 1 GB RAM, which is more than enough, but if you require more than use of microSD, microSDHC card and extend the memory up to 32GB. Here comes the most important part i.e battery, the phone has got1650 mAh Li-Ion battery offering you the talk time of 8 hours on 3G network and an remarkable 18 hours on 2G network. Samsung Galaxy S2 I9100 review exclaim that the phone is quite impressive. Check out the Samsung mobile price, you will find Samsung I9100 Galaxy S2 price to be quite appealing.
