European Auto Repair Centre - Your Car in Caring Hands

by Henrica Hopman

Article published on February 21st 2012 | Auto

How many times have you gone to the repair centre and ended up buying more services than you originally intended to? Or how many times have you been lured by discounts but ended up paying more in the end? Well, at least this will never happen to you with European Auto Repair Centre, Boca Raton. They assure you that their people will never pressure you into buying more and more services or recommend any other service that your vehicle does not really need. Their oil changing services are quick and efficient. They are so sure of themselves that they guarantee you will not need to change the oil again for 18 months or 18,000 miles.

The confidence European auto service Boca Raton stems from the fact that their mechanics are not just any mechanics. They all are ASE certified technicians who literally speak car-technology. Accompanying them is world class equipment that cares for your car like a baby and more than ten years of experience in the field of auto repair.

Oil Services:

As anyone with elementary knowledge of automobiles would tell you, oil is one of the most important components the car to run smoothly. Changing it at regular intervals ensures that the engine is always healthy and its life has been elongated. European auto service Boca Raton's oil change is quick but includes a 20 point service and safety inspection. This begins with a complete and mechanical check of the safety fixtures of your car. This ends up providing way more advantages than those aforementioned.

Their complete services can be summarized into about 10 basic points, the heart of which include:

1. Replacing oil filter

2. Replacing old oil with new one depending upon the vehicle and need.

3. Checking various fluid levels and ensuring they are within the recommended range.

4. Inspecting the vehicle's belts, hoses, and air filter.

5. Chassis lubrication

6. Inspecting steering and suspension of the vehicle.

7. Checking the vehicle's undercarriage.

This inspection also includes those of the lights in both exterior and interior of the car such as the fog lights, headlights, etc. In short, European Auto Repair Center is one of the best European auto service providers.
