Georgian BMW Unveils its New Website by [Robert Vadra](#)

Article published on August 14th 2012 | [Auto](#)

When it comes to finding a new or used BMW, Barrie is home to one of the finest BMW dealers in Ontario, Georgian BMW. Georgian BMW has recently redesigned its website to make your online experience pleasurable, informative, and fun. Start your BMW new car search at the redesigned website and prepare to be impressed.

Inspired by BMW's slogan, 'The Ultimate Driving Experience', the new website aspires to be the ultimate destination for Barrie BMW enthusiasts and current and future BMW owners. Whether you want information about the latest BMW SUV and car models offered, want to arrange financing in advance, need to schedule BMW service, or want to shop for a certified BMW online, the new website puts everything you need at your fingertips – and it's visually stunning, just like the new and pre-owned BMW cars for sale.

Neatly organised and clearly labeled, the new website is easy to navigate. Every element serves a purpose: to help, inspire, or educate you. If you're looking for a BMW for sale, check out the online inventory of new and used BMW cars currently on display at the BMW (Barrie) dealership. Want to schedule BMW service? You can do so online.

If you're wondering how to finance a pre-owned BMW SUV, head over to the new website's finance centre where you can learn more about BMW leasing and loan options for new and used BMW. Barrie, Orillia, and buyers from other Ontario communities can also apply for credit online.

Georgian BMW is committed to delivering a fantastic customer experience whether you visit the dealership in person or virtually. Make sure to visit the website often for specials on BMW service and parts, the latest news, and details about special pending events such as BMW driver training events.

In addition to the new BMW dealership website, Georgian BMW has embraced social networking. Check out Georgian BMW on Facebook and share your enthusiasm with other BMW fans.
