Everyone wants to get their website to the Google Page one of the search results on Google. There is an old saying that goes: â€œThe time to repair the roof is when the sun is shining.â€• This is certainly true when it comes to your journey to the Google Top 10 position of the Google search results. The time to analyze user behaviors and fix the â€œholesâ€• in your website is when youâ€™re on pages four, or two and you only have a trickle of traffic.

If you own a website, the two things that will matter to you, the most are seeing your website ranked on Google Page One and driving targeted traffic to the site. One might wonder why Google specifically â€“ and the reason is, Google is the most popular search engine out there. If you rank high on Google, you will also rank high on other search engines. So if your site is located in Google Page One Ranking, then it means that your siteâ€™s page rank is also high.
