Article published on June 21st 2012 | Auto

private number plates have fascinated the consumers since the very first vehicle registration was issued back in the 1900â€™s. Back then, with a number of local offices to choose from, people could get the number of their choice very easily. However, when the rule came up which required more consistent records of the vehicles issued; getting your very own personalized number became difficult. The motorists began to regard the car which had the existence of such a number plate as a member of the elite group of vehicles. Through the years, the prospect of getting more personalize number plates have become cheaper with over 42 million numbers available.

The prefix registrations are regarded the best style of number plates around. These are very much versatile and good value for money. This registration begins with a certain letter. The letters of the alphabet which cannot be used as the first letter are Z, I, O, U and Q. the chosen letters are then followed by numbers ranging from 1 to 3 digits. Every one of the prefix registrations will have to end with three letters.

The suffix registrations are the ones which begin which three letters followed by up to three numerals. It ends with a letter which signifies the year of manufacture of that vehicle. O, I, Q, Z and U are once again not available. The value of the plats varies according to the letters and numbers present on it.

The cherished number plates are the ones for which you pay as little or as much as you possibly can. These are the ones which are shorter than the normal registrations. Single digit or double digit number plates are used in order to represent the year of birth. Get your personalised number plates today!
