Article published on January 2nd 2012 | Sports

A true golfer would always be on the lookout for the best and latest tool to assist in a better game with a higher score. One of these tools that are growing rapidly popular is the skycaddie SG5 which is able to perform much more than its size would suggest.

Features

The skycaddie SG5 is an extremely fast GPS rangefinder that can help improve the golferâ€™s game by leaps and bounds. It is an extremely attractive and tempting device for all golfers who are new to the game or unfamiliar with certain courses..

But the skycaddie SG5 will handle all the difficulties a golfer can face of the unknown. With the skycaddie SG5, the golfer has the best technological caddy on him for the best greens information and hazard advice.

The device is not very big and can be fitted into the golferâ€™s pocket comfortably; it has a bright color screen display for easy reading on the outdoors with backlight. It can be stored safely in a rugged case that is water resistant to protect it from undesired weather conditions. It has a lithium-rechargeable battery that keeps it on when it is required with no falling out on the golfer.

The skycaddie SG5 comes with a LED battery charging indicator, it is easy to operate and comes with a 12 month warranty. Its user choice of color themes makes the skycaddie SG5 even more appealing to the fashionista golfer.

Availability

The skycaddie SG5 can only be procured from any authorized retailers in the golf industry. Only authorized dealers of all skycaddie SG5 will offer the full warranty as well as back up service on any skycaddie purchased.

As a popular tool, there are many fake skycaddie SG5 devices in the black market which do not have the same premium offerings and are well steered clear off.

Genuine skycaddie SG5 devices will have a twelve month free Birdie membership included in each purchase .

Functionality

Skycaddie SG5 devices offer high quality GPS rangefinder for any golf greens on a readable screen. It is long lasting with a lithium battery that can be recharged.

There are many advanced features included in every skycaddie SG5 for the convenience and benefit of the golfer like patented IntelliGreen technology that allows an accurate depth and shape measurement of the greens that is to be played. It is intelligently programmed to display the greens from any of your preferred angle of approach.

One of the highlights of skycaddie SG5 is its listing of targets and hazards around the greens to offer the golfer pre-knowledge of the greens with an overview to be more prepared in his game. This truly is a must gizmo for golf fanatics.
