West Indies Sticking to Taste a Confident Win Against India, Today by Sanjay Umak

Article published on December 6th 2011 | Sports

West Indies cricket team is now desperately looking the revival of Vivian Richard in their team and the record breaking performance of their opening partnership of Desmond Haynes and Gordon Greenidge. The fact is to lack of performance in these days against India. Cricket bowling machine is being talked for many times as the team has accepted its importance to give a good shape in its batting order but still the team is to use properly the cricket bowling machine as its core equipment to have practice with. However, West Indies team was at par in their glorious days of winning World Championships for two times at a row and now the team is struggling a bit against the young Indian players.

Although Harsha Bhogle, the writer and commentator, said with regard to West Indies performance, â€œWest Indies seemed to be trapped in a mindset that dooms them to failure.â€• But the team is now looking ahead with a good win today which will be scheduled in Ahmedabad soon.

Expecting huge crowds today in Ahmedabad, the Sardar Patel Stadium has all set up to host this ODI. This stadium has already hosted three World Cup matches including a high-profile India versus Australia quarter-final. Now the fans are ready to have a show up for this one-day game.

Ottis Gibson, the West Indies coach, said with regard to this, "It's difficult to say I am satisfied when you are losing. But we have shown a lot of spirit and created opportunities to win." However, high-spirited Indian fast-bowler Umesh Yadav said, "McGrath is my hero. I am inspired by him and trying to bowl like him."

Regarding the pitch concern at the Sardar Patel Stadium curator Mr. Dhiraj Parsana said with regard to this, "The wicket here has always been good for batting, but the bowlers would also have a good time I believe, as they would be able to get good pace. The side that wins the toss should bat first. However, dew could be a factor here, prompting the captains to decide otherwise. Efforts have been made to keep the effects of dew to a minimum. We have stopped watering the field three days prior to the match and have also sprayed a special kind of chemical."
