Yamaha YZF 250 R4 - appealing looks and great functionality by Wilson Roy

Article published on August 24th 2012 | Auto

Yamaha is the most popular company known for producing classic bikes. This time the company is manufacturing 250 cc bikes in India. The market already has lots of 250 cc bikes launched by the company Honda. Thus this bike from Yamaha will give the tough competition to the other bikes. This is the masterpiece made by Yamaha which comes with amazing looks and stunning performance. If you will have a look at the bike you will get to know that this is and the serious competitors. The other different bikes prices in India are relatively low as compared to the features they pose. The other Yamaha bikes price depends on the features and performance they offer.

Although the design of this Yamaha model is very appealing, it is observed that the Yamaha has got this looks from its sibling YZF R6. Few of the features included in the vehicle are tanking, rear view mirror, headlamp, under fenders, rear fender and tough looks which increases its demand in the Indian bike market. The handle of this Yamaha model is less sporty which makes the rider to bend while riding. The brakes are dual and are applied to the front tires.

Usually the Yamaha bikes are known for powerful engines and are made perfect for the Indian streets. The average mileage of this 250 cc bike is declared to be 30 to 35 kmpl and the highest speed given by the bike is 145 kmph. The engine of the bike is air cooled and has 4 stroke engines. Also, it possesses a V-twin and is fused with OHV valves every cylinder. The compression ratio can be 8:4:1 and the stroke and bore are measured at 97.0 x 113.0mm. This bike is great for the young people who are crazy for speed and the looks.

The Yamaha Company has stated that this bike will generate approximately 32 bhp of the power and the torque could be 100.3 Nm at 2,750 rpm. The bike comes with an electric start and has 5 speed gears to provide tremendous speed and decreased consumption of fuel. The machine of the bike is made of number of disc clutches and also it has the T.C.I. ignition system.

The bike has got not only the excellent features but also it takes care of the safety features and has rear suspension called as a Swing arm and the rear wheel provided is of 117 mm to offer safety and balance. The bike will come with the aluminum frame with CF die cast having double cradle.

Yamaha has not revealed the specification of the bike but the Yamaha YZF 250 R4 price in India is around 2, 50,000.
