The Best Vacation Iâ€™ve Ever Had â€“ Unforgettable Homestay Kuala Lumpur

by Albert Stevenson

Article published on January 19th 2012 | Travel

Traveling to other countries is an exciting experience to everyone including to the whole family. Choosing your favorite place to satisfy your needs in finding the great spot to spent your vacation or even the place for your work. In having your vacation is one of the things that you need to think about because that will be the time that you will treat yourself and I think that you donâ€™t want a disaster to your vacation. Planning is very important to make everyone happy and that will depend on the chosen location, the food, the beautiful sceneries and the accommodation.

I would like to share to you my experience regarding my vacation trip in Malaysia and it is a very memorable one. Going out there is one of a kind because of the beautiful places, the delicious cuisines, the hospitality of the people living there and the warm accommodation in the Inn that we stayed in. Together with my family we travel along Petaling Jaya and we did enjoy going to its malls and other places to spend our time. We dine in some restaurant that gives full service that we didnâ€™t even imagine and itâ€™s really a great experience. Eating in Mamaks is very relaxing and by the way Mamaks means open air food stalls opened by Indian Muslims there. We ordered some hot and spicy food there that makes us go crazy because of its very good taste. When we had a chance to go shopping we go to their Pasar Malams or in English â€œNight Marketâ€• and you will definitely enjoy going out there because of the cheapest items that they are selling. The quality of the items are very good especially the one that I brought that is a native hat that I really love because of the design and the coolness that gives to me when Iâ€™m wearing it.

Some say that it is very hard to find a very hospitable place that makes you feel at home but I found it here in Kuala Lumpur because the people there are very caring and they always ask us about the things that we need also they always talks to us even do some of them are having a hard time talking in English but still they are trying their best to deliver themselves to us. Lastly, we spent our nights in an Inn on where we really enjoys staying there because of the relaxing ambiance that makes you feel at home, the name of the Inn is Comfy Inn.

We really enjoy our homestay Kuala Lumpur because we really did the right decision in choosing Comfy Inn as the place that we will be staying. The facilities are very clean and very comfortable, the neighborhoods are very kind and we really enjoy talking to them and actually we had a chance to eat and chat with them and itâ€™s really a great experience. Itâ€™s like living in your home even your away from your home.
