Travel Cribs

folding cribs are great when travelling. Some travel cribs can also be used as a playpen for your baby. When you plan to travel it is recommended that you sleep the baby in the crib for a few nights so as to get used to it. Many tr Advantage Of Dental Veneers avel cribs have got removable and washable covers that fold into a travel bag.

Toddler Beds

Toddler beds are used for older babies who can easily climb or fall out of a crib. Parents who are expecting a second child can buy a toddler bed for their older child. Toddler beds are usable with standard crib mattresses, which can be used until the baby is big enough to use a conventional mattress size. Many cribs come with an option for conversion to a toddler bed and can thus be used for this purpose when the baby grows older.

Baby Nursery Furniture Items

Changing Tables

Changing tables are specially designed for use when changing the babyâ€™s diapers or other clothing. Although not strictly necessary since a changing mat can also be used for this purpose, it is a good idea to have an area for storing diapers and related products.

A changing table will normally incorporate a storage area for baby items such as diapers, baby wipes and creams and so on. Some also come with drawers. A good changing table should have guard rails for added security. Generally, those with open shelves that run the entire length of the table tend to be more convenient than those with small baskets on the sides.

A changing table is ideal for mothers who have undergone a caesarean section or mothers who experience difficulties in sitting or bending after delivery. It is, however, not a good idea to use one for a bigger baby who can easily roll off the sides.

Chest Of Drawers

Many chests of drawers are designed to be used as a convenient place for changing the babyâ€™s diapers. These types come with a plastic mat located on top and a raised section located at the back as well as the sides which prevent the baby from falling over. For parents who would like to use this device for changing the babyâ€™s diapers, a 3 draw model is ideal.

Combo Tower

An important feature of your baby nursery furniture items is versatility, especially considering that the baby will not be an infant very long. The Combo Tower acts as a changing area and also as a storage area fort the babyâ€™s diapers .To uses it as a changing table, all you need to do is put a changing pad on the lower end and secure it with a safety belt.
