Will You Buy Canadian Whisky or American Whisky the Choice is Yours?

by James Elfered

Article published on March 15th 2012 | Wine

So, what exactly is Whisky? Very simply speaking just like beer made from grains such as barley, rye or corn. That means you can even say its distilled beer. Right? No it would almost give a Whisky lover a heart attack. The difference comes with the type of grains used, how and the number of times it is distilled, and the quality of wooden casks chosen to age the Whisky gives Whisky its uniqueness. Though it is difficult to say where Whisky originated from now days due to its popularity Whisky is produced in several regions. So, the choice is yours whether you buy Canadian Whisky, American Whisky or any other Whisky that you prefer.

Now if you buy American Whisky instantly you think of bourbon. Other popular types of American whiskies are rye Whisky, blended Whisky, straight Whisky and malt Whisky and Tennessee Whisky. An American Whisky normally contains mash of corn, although other grains are also present. Usually no blending or additives are used to get its great taste. However, water may be used. This Whisky is aged from two to four years. If you like your Whisky slightly on the spicy side you Buy American Whisky.

When you Buy American Whisky you should see whether itâ€™s straight or straight rye Whisky. This simply shows the age of the Whisky. If a Whisky has been casket for over two years it is called straight Whisky. If you like blended whiskies but you like them strong you safely Buy American Whisky, reason being that American blended whisky straight Whisky is combined with neutral grain spirits only and they have a similar alcohol content to straight Whisky.

Another new trend which makes one Buy American Whisky is that straight rye American Whisky is being used by mixologists and bar tenders in a number of cocktails, making this a popular choice for bar goers. So, if you are planning to have some guests over you might Buy American Whisky and try your hands one of the trendy cocktails.

On the other hand you Buy Canadian Whisky, if you prefer your Whisky slightly lighter. The reason behind this is that Canadian Whisky is usually made by mixing a base Whisky and some sort of a flavoring Whisky. The base is usually corn and the flavoring is rye. Although the amount of rye present is very small it is called Canadian rye Whisky. When you Buy Canadian Whisky you should keep in mind that the main difference between the two whiskies is that the Canadian one is much, milder both in taste and intensity.

Since Canadian Whisky has a lighter style, you Buy Canadian Whisky and can enjoy it all year round, even in the hot summer months. Another reason to Buy Canadian Whisky would be that because of its taste it can be just mixed with soda or can be just enjoyed on the rocks. If you like a hint of caramel or fruity infused flavors you Buy Canadian Whisky and can enjoy it in a number of ways.
