Elementary Statistics a Step by Step Approach 8th Edition by Adair Sawyer

Article published on December 17th 2011 | Book Marketing

When it comes to management and teaching courses, you may be required to purchase copies of either Elementary Statistics A Step By Step Approach 8th Edition or Essentials of Contemporary Management 4th Edition as part of your studies. These two bestselling textbooks by McGraw-Hill are two of the most required textbooks among college teachers in the United States.

Elementary Statistics A Step By Step Approach 8th Edition selling for a suggested price of $161.99 is a step-by-step approach to statistics. It is generally used as prerequisite for basic algebra classes. This textbook focuses on many elements of statistics including graphing calculators. Elementary Statistics A Step By Step Approach 8th Edition mainly focuses on those areas wherein students commonly make mistakes when it comes to statistics in general. The course also comes with an online homework platform that allows users to further their learning in this much required area of study.

Essentials of Contemporary Management 4th Edition focuses on making the idea of management "real" to readers. Even those students who have not had to deal with management at any level, will have no problem understanding the theories and teachings presented in Essentials of Contemporary Management 4th Edition.

The textbook provides detailed examples of management in order to further enhance the learning experience of students and to provide them with "real world" understanding of the subject matter. It covers management attributes such as skills, experiences, and performance. Essentials of Contemporary Management 4th Edition also covers management topics in regards to ethics and information technology.

Essentials of Contemporary Management 4th Edition sales for a suggested retail price of $96.99.

Both Elementary Statistics A Step By Step Approach 8th Edition and Essentials of Contemporary Management 4th Edition should be purchased online if you desire to save yourself money on the suggested retail value. The majority of campus bookstores or general retail bookstores are unable to provide substantial discounts on these types of text books.

The former textbook can be acquired with a savings of $102.00 when it is purchased with the assistance of the online textbook provider of PriorityTextbook. They offer the title for a total asking price of $59.99. Essentials of Contemporary Management 4th Edition can be acquired for a total of $59.99 as well. This is a savings of $37.00 off the suggested retail price of $96.99.

There are not many online providers or in-person retailers that can provide you with this type of exceptional savings. That is why PriorityTextbook is quickly becoming the most relied on resource for the purchase of textbooks. From its conception it has quickly acquired a top-rated reputation among students. It continues to grow in popularity as more and more students experience the discounted savings they are able to acquire with this professional online service.

If you truly want to save yourself money on the purchase of textbooks like those mentioned herein, then you should immediately bypass all other options and make use of PriorityTextbook. There is no easier way to save yourself time and money with limited effort.
