A Range of Cars from Dealerships to Meet Your Needs

by Maria Wegner

Article published on April 19th 2012 | Business

A carâ€™s functionality is one of the factors in choosing the car we need. There are different functionalities for different cars that correspond to different needs of the people. These are important considerations aside from the price and brand of the vehicle that owners should think about when they decide to get a new or used car.

A fixed budget and knowledge about your choice car helps trim down your options. Determine the uses of the vehicle for you and your family; whether you need a spacious family vehicle for everyday use or a truck for business and other industrial matters. These would make your car purchase easier. There are dealerships that carry quality cars from manufacturers like Ford with features that suit various buyer requirements.

Ford has coupes, sedans, trucks and SUVs. Trucks like Ranger and F-150 are heavy duty vehicles used for cargo and are capable of carrying more than their weight. They can be driven through any weather because of its Advance Trac with Roll Stability Control technology that helps maintain vehicle control.

The Ranger and F-150 trucks are also perfect for families who love the outdoors due to their towing capabilities. They can tow up to 5,800 pounds which is approximately the size of a big boat or a trailer. These trucks have efficient fuel economy and improved traction on both rear wheels; they also have a Trailer Sway Control and Integrated Trailer Brake Controller that provides greater power for added loads.

These dealerships also have cars like Fusion which can be perfect for a small family. The used Fusions Brampton dealers have can give the best value for your money. A Fusion has a default Anti-Lock Brake System (ABS), panoramic sunroof, traction control, keyless entry, and cruise control. It can keep you entertained with its CD player, MP3 decoder, and AM/FM radio which can be controlled through the steering wheel mounted audio controls.

The used Fusions Brampton dealerships offer has a 2.5L engine with I-4 cylinder configuration and a six-speed automatic transmission. Its fuel tank capacity of 66.0L has an average fuel economy of 6L per 100km for highway and 9L per 100km for city. It is a front-wheel drive with four-wheel independent suspension.

These used Ford trucks Orangeville dealers offer, and the Fusions from Brampton dealers may just be the car you need. Dealerships can help you decide about which cars best fits your budget and lifestyle. For additional information about these cars, you may visit ford.com or auto.howstuffworks.com.
