E-Payment Solutions Market in India 2011 by [Bharatbook](#)

Article published on June 18th 2012 | [Business](#)

E-Payment Solutions is set to become one of the most promising sectors in the near future due to increasing consumer spending and different modes of payment rapidly gaining popularity. Foreign players are also showing growing interest in the Indian market, with plans of launching faster and easier payment solutions. As of 2009, India had approximately 32 mn graduates and 2.4 mn post graduates and in order to leverage their skills, a number of foreign banks have shifted their back office operations to India. Rise in electrification will further boost the market and consumers across all categories will readily look for ease of payment options.
