Emerging New Projects in Gurgaon by Webinfiniteit

Article published on August 3rd 2012 | Business

It is impossible to accommodate the rising demand of estate and properties. Therefore a lot of new projects in Delhi are emerging as each one of them boasts of providing better facilities and better security. Every now and then, new builders come up and build apartments, malls, multiplexes and recreational centers which attract buyers in the city.

Standing tall at 21 floors and spread over an area of several thousand square feet, The Metis is one of the new projects in Gurgaon on commercial basis which is conceived as an integrated IT campus which will address the unique work and lifestyle requirements of todayâ€™s corporate executives, software professionals and the next generation entrepreneurs.

Gurgaon Greens is another residential project spread across 1650-3200 square feet which is nestled in a posh residential area of Gurgaon. The place provides ultra-modern features and facilities and offers a peaceful and serene environment.

The BPTP Park Prime is a housing project spread over 11 acres of land and comprises of nine towers. The project offers large apartments in 3-BHK and 4-BHK categories. The project features a swimming pool, landscaped green parks and even a recreational club.

Surprised?

These are not just the only ones. There are hordes of other new projects in Delhi like Paras Irene, Emerald Hills Floors Select, Spaze Palazo and other DLF and DDA projects that are incorporated to offer these luxurious features to the buyers. Some of them would fit well in oneâ€™s budget and others are high in terms of money. But in a manner, every buyer will find a property suiting his needs.

All these new projects in Gurgaonare usually surrounded by greenery and consist of parks which keep you close to the nature. Many of the projects consist of multiplexes nearby for the residentsâ€™ entertainment. Several shopping malls can be found near such projects. Other recreational spots are also built within the premises so that one doesnâ€™t have to travel for the sake of relaxing. The security systems are good enough to provide optimum safety to the residents. All the flats are equipped with the latest security systems.

These projects are great even for commercial purposes as the commercial projects build large space to build offices, official rooms, banks and ATMs to accommodate everything that one may need.

Overall, the emerging projects have become quite popular among citizens for they provide everything one may need. And several more are in the pipeline, thus there is a lot for those who have not booked a space already.
