For a wide range of submersible pumps and professional, independent advice contact Whisper Pumps Ltd by Mary Porter

Article published on July 9th 2012 | Business

Whisper Pumps Ltd are a leading online shop based in Nottingham, UK stocking all your pumping supplies. We were established in 1994 and have earned a well deserved reputation as among the very best in the business supplying great quality products to both the commercial and domestic sectors.

We are totally independent company through our own choice as this enables us to advise you on the correct pump for your specific requirements without restrictions from manufacturersâ€™ restrictions. We are independent distributors for all the leading manufacturers including, but not limited to Loward Pumps, KSB Pumps, and ZDS borehole pumps. We cover all pump equipment and categories from agricultural and submersible pumps to electric motors and borehole pumps.

Whisper Pumps are very proud of their fabulous reputation and are committed to complete customer satisfaction. From initial enquiry through to dispatch our professional and highly trained staff will give you the best independent advice and ensure a smooth transaction and prompt delivery. Our pimps are dispatched the same day when the order is placed before 2pm, and there are no customs delays as all ours goods are dispatched from our UK base.

We aim to pass on the most competitive prices to our customers and at present our submersible pumps come at a massive 60% off MRP. The aim of the submersible pumps is to push fluid to the surface where as jet pumps pull the fluids making them less efficient. Submersible pumps are used in a wide variety of places from low level drainage to ponds and water features.

Borehole pumps are amongst our best sellers due to their wide usage. We stock a comprehensive range of Borehole pumps only tried and tested manufacturers and again available at a duper 60% off MPR.

For advice and further information contact us on 01777 871100.
