Cat Engine

There are a number of companies that manufacture engines for heavy trucks. Some of these companies have been able to make a mark for themselves while others have not tasted much success. However, if there is one company that has been able to live up to its name and fame, it has to be Cat Engines.

Origin

It was in the early years of 1900 that Cat engine first came into existence. However, it got its official name and reckoning in the year 1926. Since then, there has been no looking back for this company who seem to have mastered the art of manufacturing engines for heavy trucks.

The efficient Cat engines

A cat engine is probably the first name that comes to mind whenever we talk about engines for heavy trucks. One of the highlights of cat engine has always been its efficiency which is simple superb. This is one of the reasons why most of the heavy trucks have engines made by Cat. The engines are known for their amazing ability to perform in the best manner day in and day out. Another reason why Cat engines have indeed taken over the heavy truck market is because of its low maintenance aspect which inturn increases the value for money. As a heavy truck owner you can be rest assured that you would not have to shell out much in terms of maintenance cost if your truck id equipped with a Car engine.
