Article published on April 9th 2012 | Business

Negligence is failure of a person, who is responsible enough, to do his duties, which he ought to have done in a demanding situation. Failure of a person in doing his duties which causes harm to property or to personâ€™s is called negligence.

Negligence can arise out of any situation like negligence by doctor in handling the patient, professionals; negligence in manufacturing a faulty product; negligence causing road accidents, damage to property. Accidents due to trip and fall can also be categorized under negligence. Making a claim for somebodyâ€™s fault resulting in harm to people and property is negligence claim.

There are many categories in negligence claim like accountancy negligence, professional negligence, medical negligence, clinical negligence etc. If a person is a victim of any of this negligence, then he is at liberty to make negligence compensation claim.

Negligence compensation claim is making a claim for the losses incurred; stress and pain under went in an issue of negligence legally. The claim can be made from the person agency authority responsible for the negligence. In medical negligence, if the fault is with the doctor, nurse, dentist, or any medical staff, then a medical negligence claim can be made. Delays in proper diagnosis, wrong prescription of medication, wrongly done surgery are all few categories in medical negligence claim.

To claim negligence compensation, one has to prove the faulty in the accident. Wrong advice leads to loss of money. Lack of signboard and direction on a damaged road can also lead to an accident, misdiagnosis by a doctor can lead to the loss of life; wrongly done surgery, complications etc can also be included. One has to prove that the negligence in the care and service provided from the opponent leading to the situation to make the claim.

Proofs regarding the medical condition, medical reports, financial losses incurred because of the negligence like lack of income, productivity loss at work, medical expenses; firsthand account of the incident, photographs of the incident, contact details of eyewitnesses if any needs to be provided. Seeking the help of a legal solicitor in issues involving medical, conveyance negligence and other types solves the issue without any complication. Only a correct person with the right kind of advice can help solve negligence issues easily. Compensation can be claimed for the physical injury, pain, suffering undergone, lack of income, unseen expenses, and lifelong dependency on caretakers.
