Empower Network is so ridiculously simple, but if you canâ€™t take the time to set it up properly, you probably shouldnâ€™t join. Stay with your day jobâ€¦

During the set up process, the most challenging part of the entire set up process and empower network system is the first step: setting up your merchant account. This merchant account is critical because without it, YOU WONâ€™T GET PAID! Donâ€™t take the lazy way out and opt to use paypal. Us the Empower Network recommended merchant account and save yourself the heartache that may come later on.

Good news, if you can follow along with a video tutorial and click buttons, you can set up the merchant accountâ€¦ itâ€™s so simple your granny can do it! Once thatâ€™s doneâ€¦ youâ€™re home fre www.empowerglobalnetwork.com

Step 2: Blog Every Day on Your Empower Network Blog

In the fast start training videos in your empower network back office theyâ€™ll tell you that blogging daily is highly recommended for empower network success. The key take away with that is if you truly want to be an internet marketer, you must take action daily. All successful internet marketers have one thing in common: they all have a blog!

Essentially, you can blog about whatever you wantâ€¦ but BE SMART! Blog about subjects that provide value to your target audience. You can never lose by doing MLM company reviews. Why? Because youâ€™re targeting existing MLMers which are in your target market. Plus, MLMs and MLM reviews are HIGH TRAFFIC keywords.

Step 3: Promote Your Blog Posts

This is a critical aspect to your success online and I see so many people drop the ball here. Think about itâ€¦ why post anything if no one will ever see it? Itâ€™s like advertising on a billboard in the middle of a vacant field. It just makes sense to advertise where people will actually see it. www.empowerglobalnetwork.com

You can promote your posts on Facebook (put it in your status), LinkedIn and Twitter for added exposure. If you really want to go â€˜above and beyondâ€™, post a short video on Youtube promoting you blog post and tell people to click on the link under the video where you have the blog post URLâ€¦

Step 4: Market Every Day

Are you getting tired of this â€œevery dayâ€• thing yet? I hate to break it to ya lazy ass but if you want to have success in empower network, this is what it will take!

Since the internet is global, and so is Empower Network, you can work when it fits your schedule. Have the goal to do at least 1 hour of work each day. One simple post every day will compound your results exponentially over time. So if you have a reasonable goal of generating 2 leads per post, and you post every day, at the end of 90 days youâ€™ll have generated 180 leads. If you understand the numbers with empower network, at least 10% of those people should join at the $25 basic membership.

So hereâ€™s the math: 180 x 10% x $25 = $450 passive monthly incomeâ€¦ Not too shabby, right?!? www.empowerglobalnetwork.com

Step 5: Call To Action

The call to action is one of the most overlooked steps in online marketingâ€¦ especially for newbies! Itâ€™s important because if you want to drive sales and commissions you must have a call to action in order to be effective. Therefore, include a call to action in each blog post. www.empowerglobalnetwork.com

You must have a call to action so your readers know exactly what to do. It may seem like common sense, but common sense isnâ€™t always common practice. While you might know what you want your readers to do, your readers donâ€™t. Leaving a call to action does not guarantee your readers will take action, but it significantly increases the chance that they willâ€¦ and when they do, your business and bank account will thank you! www.empowerglobalnetwork.com
