Have Your Photo Printed on Canvas with Print My Canvas by Hansel

Article published on January 12th 2012 | Business

There have been a number of online printing companies recently enter the already crowded Australian canvas printing market. Many of these companies are in a race to produce the cheapest possible product. No service, no support, and poor quality. We are going the other way â€“ towards a higher quality product, a better level of support, and guaranteed satisfaction with your product.

When you order a canvas photo print with Print My Canvas, you receive a product professional calibrated, printed, stretched, approved and packed â€“ and we guarantee satisfaction with your product. We use the highest quality materials available, including Canvas premium-weave canvas and Epson 9900-series printers, to create a long-lasting, archival-grade photo on canvas print.

Using our online ordering system, you simply upload your photo and choose a product, meaning you can easily turn you photo into something modern and dynamic, like a triptych print, or apply a unique artistic effect to it, like Oil Painting. We also offer a unique photo retouching service â€“ â€˜Photo Flairâ€™ â€“ that includes 30 minutes of professional design work from our graphic designing team to ensure your photo turns out absolutely perfectly. We recommend this service if you need any advanced design work done to your photo.

We offer a range of over 20 Classic Canvas Print sizes, and a number of other product types that can really turn your photo on canvas into something special. Situated in Brisbane, Print My Canvas posts Australia-wide for free, and you can order insurance as well for peace of mind. Starting from just $64 for a 10â€• x 8â€• print, we offer highly competitive prices for a truly archival stretched canvas photo print.

Printing photos onto canvas is a great way to personally decorate your home, and capture and display a special moment for decades to come. Canvas artwork is affordable, light, easy-to-move and very long lasting. Print My Canvas are a new Brisbane photo canvas prints company and having opened their doors in September this year, the printing team have found many customers to be looking for a better quality product that wonâ€™t fade in the hot sun or wilt with the humidity.

Using the finest Epson printing technology, authentic Epson Ultrachrome water-based ink and unmatched colour calibration, a Print My Canvas canvas print is the quality of a professional giclee printing lab, without the price tag. You can also explore other printing options like a triptych, multi panel or panoramic print. If you are after â€˜wowâ€™ factor, the bigger the better.

The best bit about ordering photos on canvas in Brisbane is that you will receive an instant online proof that will show you what your canvas print will look like. The printing technicians will never print anything that doesnâ€™t look fantastic, and thatâ€™s why the company offers a 100% Money Back Guarantee if youâ€™re not completely satisfied. Whether youâ€™re in Brisbane or not, our canvas prints a high quality and delivered Australia-wide.

To place an order, simply visit the Print My Canvas home page and click â€˜Upload & Orderâ€™, and you will see one of the best parts of Print My Canvas â€“ our fantastic online ordering system. You begin by uploading your photo and from there you can choose your product type, size, artistic special effect, image retouching services needed and wrapping type. What is wrapping type? It is the kind of printing style that will be â€˜stretchedâ€™ over the wooden frame of your can print. You can either get it mirrored, bled or choose a solid colour â€“ a simple white border looks striking on the right photo.
