Helpful Tips While Hiring a Brisbane Car by [Luke Marie](#)

Article published on August 4th 2012 | [Business](#)

Cars are an important companion if you want to travel at your own convenience. However, what will you do if you are going to a new city like Brisbane for a business trip or for a vacation and need a car to travel at your own leisure? A Brisbane car hire service can really come in handy on such occasion. There are several Brisbane car lenders who can offer you new as well as used, sports as well as SUV cars for hire. The rates of hired Brisbane cars are inexpensive but, their rental day is of 24 hours from the time of pickup and additional hours are charged comparatively high. Furthermore, you have to bear the fuel charges, unpaid infringement notice and tolls. Despite this, a Brisbane car hire can be the best option if you want to travel within the city.

Below are some of the tips that will help you hire a Brisbane car:

Advance booking – booking in advance is a good idea especially if you are looking for a good car in the peak season. Brisbane has one of the biggest economies in Australia and is a hub to several blue collar as well as white collar industries including petroleum refinery, metal working, financial sector, information technology and many more. Due to this, people are frequently visiting from other nations for business meetings. In such situation advance booking for a Brisbane car can be a plus point.

Airport Delivery – this could be the most important tip while hiring a car in Brisbane. There are several Brisbane rental car providers who offer airport delivery service. This means that as you are about to land on the Brisbane airport a car would be right there waiting for you. This way you don't have to shuffle around the city to locate your rental car provider. In addition to this, they would have all the paperwork ready for you at the airport itself. However, to do airport deliveries the rental service provider must have airport license. These things can be checked from their website.

Baby Seat or Child Seat – if you are travelling with a child, you should instruct the Brisbane car provider to install a baby or child seat. In Australia it is compulsory to have a baby seat installed in the car if you are travelling with a baby. Though the car providers will charge you some extra money, but it is better than being caught by the authorities for breaking the law.

GPS – finally you should always ask the car provider for a GPS device as Brisbane is a big city and could be an unfamiliar one if you are visiting it for the first time. A GPS device can help you reach your destination with ease, but most importantly it will save you fuel charges by giving you the best and short route to your destination.

So these were some tips while hiring a Brisbane car and all the details regarding advance booking, airport delivery, child seat and GPS can be easily available from the car provider's website.
