by Elissa Joyce

Article published on January 16th 2012 | Business

It is a fascinating truth that to date many people do not know what a word press theme is. Essentially then it is true that they donâ€™t know how to get money using free wordpress theme. A wordpress is free open source blog and CMS tool that allows a person to build a website. Most wordpress themes come with a frame which one may customize settings.

Learning how to navigate and even get to use the free wordpress indicates that one is learning how to make money. If you could stop and think you too can be part of the many webmasters that are making good money using it. With Continued growth of wordpress people are exiting their jobs after learning how to make money with wordpress.

One of the best ways of learning how to get money using wordpress is becoming a developer first. After becoming a developer you then build a clients site. Over a quarter of a million websites that deal with how to make money using wordpress use the same framework. This framework is a foundation of their web presence.

Try developing genesis child themes. There are lots of interests that come with the genesis framework. This is because it carries with it the general public license. This allows you to build other themes on it. Talented designers who have learnt or mastered the art of how to get money are building and selling child themes. Themedy and theme forest are some of the places that are building amazing child themes.

Those who know how to make money using wordpress normally identify and own a niche with Genesis. Such a move helps webmasters to stay on top of their competition. You therefore need to identify a niche that would best fit what you have and what you are pursuing.

Proper way on how to make money using wordpress includes becoming an affiliate and market genesis. Yu still have a chance to make more money whether you engage in child theme reviews or simply place advertisings on your site. You also need to develop and sale advertisements online for genesis. This is another chance open opportunity on how to get money using wordpress. Let the genesis framework and seo wordpress theme be flexible enough to allow users build social networks for their companies, schools etc.

It is also important to create a membership site for genesis training. This increase you channels for making money. Designers look for ways on how to get money should proberbly explore this. This is because there is still void for niche specific and detailed information that some users are looking for. There is still room for more talented designer to make chunks of money by mere display of their talents.

The powers of wordpress and the extensibility of Genesis present greater opportunities for viable business. If you know want to know how to make money then this is definitely how to make money. Using wordpress is easy and anyone can do it. You only require to be patient.
