How to buy surveillance camera of Shenzhen Apexis Electronic to teachâ€”â€”www.apexis.com@andylyer

Article published on April 18th 2012 | [Business](#)

Around us, there is often such a thing. For example, someone want to buy a wireless ip camera, but do not know what to buy.

So I asked friends and relatives which surveillance ip camera manufacturers? Which brand letter trustworthy, etc. and the like and want from others

Where to find the point of view. But you have not thought about someone else said, it is exactly suited to his own needs different

Kind of choice is not the same. Here is St. prestige mini ip camera I organize some information, I hope to have this worry

User help.

First, attention to their needs, emphasis on cost-effective.

Many people will encounter such a problem, and had intended to buy a camera good to buy their own needs, but no

Live salesperson to good products, good brand of temptation, and the selection of the addition of a. In fact, security product homogeneity is very serious,

Imports with domestically produced almost the same, so my friends do not blindly worship of foreign brands, to buy their needs best.

Second, especially under the care of the ip control camera

The scope of application of the lens as follows: (1) Manual, (2) automatically. Manual iris lens ring for all indoor monitoring required

Little changes in the environment illumination. (2) Auto aperture lens: required to monitor the environmental illumination changes, such as outdoor.

Third, the size of the functional

The so-called high-definition surveillance hd ip camera is the clarity of the screen, to achieve the sharpness of the picture, not just a water

Level resolution of 540TVL, preferably also has a wide dynamic, auto white balance, image sharpness adjustment.

Super digital noise reduction (SNR), intelligent digital automatic metering compensation function. best ip camera in the bright and dark areas will have abundance

The level of rich and delicate performance, the license plate in the night lamp, the outline of the

filament and the license plate of the headlights are very clear.

But not vertical bright lines.

Fourth, after-sales service and technical support

As the saying goes, shop around, buy products must understand its after-sales service, technical support, because we are not professional staff, technical support is particularly important, easy to after-sales maintenance product problems.
