How to Exponentially Enhance Your Business Work Flow by Samantha Cole

Article published on March 9th 2012 | Business

These days, seeing a company utilizing the BlackBerry Enterprise Server is no longer a new thing. This software has turned into an integral part in guaranteeing an organized and secure workflow for any company or business that uses it. BlackBerry has recently unveiled the most current version, the BlackBerry Enterprise Server (BES) Express 5.0. Maybe it's time that you see the countless benefits that BlackBerry Enterprise Server Express software can offer you and your company.

BES Express 5.0 provides you not only with an exceptional accessibility to your work contacts, calendar, and email, but also gives you and your IT department a highly stable and easy to operate wireless solution to your day-to-day business transactions. BlackBerry can be acquired for free if you currently have an Internet-capable BlackBerry service plan, and you no longer have to spend for any extra software license expenses for your business. Additionally, you won't have to pay any supplementary charges monthly. The bills you pay monthly for your wireless provider will already feature your BES services.

BES Express 5.0 Requirements. For a user to utilize (BES) Express 5.0, he needs to have two requirements: 1) a Blackberry smartphone and 2) a subscription to an Internet-capable BlackBerry service plan. A business IT administrator will need to have 1) the latest edition of Microsoft Exchange or Windows Small Business 2) to download and set up the BES Express software on the recently mentioned software. If you're an end user, your IT officer will just add your BlackBerry smartphone into the system so you can commence to utilize the service.

BES Express 5.0 Features. BlackBerry Enterprise Server 5 has developed business email functions that allow you to link your work email account to a remarkably safe corporate email system. It is also possible to synchronize your BlackBerry inbox to the inboxes of your other email accounts so you won't have to manage two inboxes. An email erased from your BlackBerry will be erased from your other inbox too.

BlackBerry Enterprise Server Express 5.0 also has advanced calendar features. It will be easy for you to check or download your calendar attachments and send them to your co-workers. You can also view your co-worker's status if they're busy or free for the moment. This makes scheduling your meetings remarkably effortless.

If you've ultimately decided to get the BlackBerry Enterprise Server v5.0 for you and your business, feel free to ask your wireless provider about it today.
