Article published on July 4th 2012 | Business

I Love Moving is an international moving company that takes great pride in making sure your move goes above and beyond what you would expect.

With a highly experienced and well trained staff, I Love Moving stands ready to provide you and your family with the peace of mind youâ€™re looking for in your international move. Our reputation speaks for itself, as a fully licensed and insured moving company, offering many years of professional international moving and shipping services such as: full container and lift van services, storage and inland transportation, shipping, insurance, assistance with customs and all documentation requirements. We can tailor our services to your specific international shipping needs. I Love Moving is proud to offer both Ocean Freight and/or Air Freight.

We calculate shipping costs based on total number of cubic feet or kilograms, therefore, if you are relocating a large shipment, we suggest you ship by ocean as it would be more cost efficient. If you choose however, to ship something that may fall below the minimum ocean shipment volume, you may consider shipment by air. We always want to look out for your financial well being, and do whatâ€™s best for your budget and families needs. I Love Moving also offers first-class pet relocation, commercial and business relocation and RO-RO (Roll-on/Roll-off). RO-RO shipping is in reference to the transport method in which cargo is driven directly on and off a vessel for overseas transport. For example, vehicles of any size are safely secured inside the car deck during transportation, therefore, unaffected by outside elements during the voyage overseas.

Want to be settled in before you unpack your belongings? I Love Moving owns and operates our own storage warehouse that features a secure, climate-controlled setting. If however, you choose not to have your belongings shipped directly to your new dwelling, leave that up to one of our highly trained international shipping specialists to coordinate the storage of your belongings in our warehouse while youâ€™re acclimating, from your comfy couch to that priceless collectable! We know moving can be stressful, so let us be there for every step of the process, from planning to unpacking the last article of clothing.
